ELSEVIER

CONTENTS OF VOLUME 121

Vol. 121A, No. 1

General Papers

R. Dmi'el 1 Skin resistance to evaporative water loss in viperid snakes: habitat aridity versus taxonomic status

T. Wang, A. S. Abe and M. L. Glass 7 Effects of temperature on lung and blood gases in the South American rattlesnake *Crotalus durissus terrificus*

M. Yasumatsu, T. Yazawa, M. Otokawa, K. Kuwasawa, H. Hasegawa and Y. Aihara 13 Monoamines, amino acids and acetylcholine in the preoptic area and anterior hypothalamus of rats: measurements of tissue extracts and in vivo microdialysates

I. Ibarrola, X. Larretxea, J. I. P. Iglesias, M. B. Urrutia and E. Navarro 25 Seasonal variation of digestive enzyme activities in the digestive gland and the crystalline style of the common cockle *Cerastoderma edule*

P. Peyon, R. Calvayrac, S. Baloche and E. Burzawa-Gérard 35 Metabolic studies on eel (*Anguilla anguilla* L.) hepatocytes in primary culture: effect of 17β-estradiol and growth hormone

J. R. Pappenheimer 45 Scaling of dimensions of small intestines in non-ruminant eutherian mammals and its significance for absorptive mechanisms

Y. V. Natochin, E. I. Shakhmatova, Y. Y. Komissarchik, E. S. Snigirevskaya, N. P. Prutskova and M. S. Brudnaya 59 Prostaglandin-dependent osmotic water permeability of the frog and trout urinary bladder

I. J. McGaw and C. L. Reiber 67 Circulatory modification in the blue crab *Callinectes sapidus*, during exposure and acclimation to low salinity

Y. Kum Wan, L. Holley and R. Einstein 77 Ventricular fibrillation and defibrillation thresholds in sheep and dogs

K. Ashizawa, M. Sakuragi and Y. Tsuzuki 83 Temperature-dependent flagellar motility of demembranated, cytosol-free fowl spermatozoa

G. Sahoo, R. K. Sahoo and P. Mohanty-Hejmadi 91 Calcium metabolism in olive ridley turtle eggs during embryonic development

Instructions to Authors

Vol. 121A, No. 2

Review

A. C. Puviani, C. Ottolenghi, B. Tassinari, P. Pazzi and E. Morsiani 99 An update on high-yield hepatocyte isolation methods and on the potential clinical use of isolated liver cells

General papers

G. Terova, M. Saroglia, Z. G. Papp and S. Cecchini 111 Dynamics of collagen indicating amino acids, in embryos and larvae of sea bass (*Dicentrarchus labrax*) and gilthead sea bream (*Sparus aurata*), originated from broodstocks fed with different vitamin C content in the diet

M. T. Lima-Landman and A. J. Lapa 119 Gender does not influence neuromuscular properties in dimorphic skeletal muscles of the toad

U. Totzke and F. Bairlein 127 The body mass cycle of the migratory garden warbler (*Sylvia borin*) is associated with changes of basal plasma metabolite levels

M.-A. Beaulieu and H. Guderley 135 Changes in qualitative composition of white muscle with nutritional status of Atlantic cod, *Gadus morhua*

A. Stucchi-Zucchi and L. C. Salomão 143 The ionic basis of membrane potentials and adaptation to hyposmotic stress in *Perna perna*, an osmoconforming mollusc

T. Sasaki, K. Shimada and N. Saito 149 Changes of AVT levels in plasma, neurohypophysis and hypothalamus in relation to oviposition in the laying hen

D. W. Burgess, W. S. Marshall and C. M. Wood 155 Ionic transport by the opercular epithelia of freshwater acclimated tilapia (*Oreochromis niloticus*) and killifish (*Fundulus heteroclitus*)

B.-K. Kim, H. Ozaki, M. Hori, K. Takahashi and H. Karaki 165 Increased contractility of rat uterine smooth muscle at the end of pregnancy

L. Renwrantz, W. Schmalmack and M. Steenbuck 175 Molecular size of native proteins of *Mytilus* serum which contains a dominant fraction with heavy metal-binding properties

T. M. Clark, A. R. Koch and D. F. Moffett 181 Alkalinization by *Manduca sexta* anterior midgut in vitro: requirements and characteristics

O. Brix, K. D. Clements and R. M. G. Wells 189 An ecophysiological interpretation of hemoglobin multiplicity in three herbivorous marine teleost species from New Zealand

A. L. Byzov, I. Damjanović, I. A. Utina, B. Mićković, Z. Gačić and R. K. Andjus 197 Electrophysiological and spectral properties of second-order retinal neurons in the eel

Instructions to authors

Vol. 121A, No. 3

I. A. Al-Nasser 209 In vivo prevention of cyclophosphamide-induced Ca^{2+} dependent damage of rat heart and liver mitochondria by cyclosporin A

V. M. Rodrigues, A. M. Soares, A. C. Mancin, M. R. M. Fontes, M. I. Homsi-Brandeburgo and J. R. Giglio 215 Geographic variations in the composition of myotoxins from *Bothrops neuwiedi* snake venoms: biochemical characterization and biological activity

T. Ichikawa, K. Ishihara, K. Nozue, S. Miyazawa, N. Nemoto and K. Hotta 223 Serum and antral gastrin levels in fed and fasted rats: relation to aging

S. A. Ali, J. Peter and A. S. Ali 229 Histamine receptors in the skin melanophores of Indian bullfrog *Rana tigerina*

N. Saito and R. Grossmann 235 Effects of short-term dehydration on plasma osmolality, levels of arginine vasotocin and its hypothalamic gene expression in the laying hen

D. J. Mayo and D. Burton 241 The in vitro physiology of melanophores associated with integumentary patterns in winter flounder (*Pleuronectes americanus*)

A. Mæland and R. Waagbø 249 Examination of the qualitative ability of some cold water marine teleosts to synthesise ascorbic acid

J.-C. Chen and J.-S. Chen 257 Acid–base balance, ammonia and lactate levels in the haemolymph of *Penaeus japonicus* during aerial exposure

J. Rose, M. Kennedy, B. Johnston and W. Foster 263 Serum prolactin and dehydroepiandrosterone concentrations during the summer and winter hair growth cycles of mink (*Mustela vison*)

T. M. Mäkinen, H. Rintamäki, J. Karpakka, J. Komulainen and R. Hissa 273 Submaximal exercise in the cold: does cooling potentiate the development of muscle injuries in the rat?

P. Soudant, Y. Marty, J. Moal, H. Masski and J. F. Samain 279 Fatty acid composition of polar lipid classes during larval development of scallop *Pecten maximus* (L.)

T. Kojima, M. Nishimura, T. Yajima, T. Kuwata, Y.-i. Suzuki, T. Goda, S. Takase and E. Harada 289 Effect of intermittent feeding on the development of disaccharidase activities in artificially reared rat pups

Instructions to Authors

Vol. 121A, No. 4

General papers

C. L. Rowe 299 Elevated standard metabolic rate in a freshwater shrimp (*Palaemonetes paludosus*) exposed to trace element-rich coal combustion waste

A. A. M. El-Shafey 305 Effect of ammonia on respiratory functions of blood of *Tilapia zilli*

C. Y. Lin, S. H. Chen, G. H. Kou and C. M. Kuo 315 Identification and characterization of a hyperglycemic hormone from freshwater giant prawn, *Macrobrachium rosenbergii*

S. A. Ali, S. Stoeva, J. Schütz, R. Kayed, A. Abassi, Z. H. Zaidi and W. Voelter 323 Purification and primary structure of low molecular mass peptides from scorpion (*Buthus sindicus*) venom

S. D. Crissey, P. McGill and A.-M. Simeone 333 Influence of dietary vitamins A and E on serum α- and γ-tocopherols, retinol, retinyl palmitate and carotenoid concentrations in Humboldt penguins (*Spheniscus humboldti*)

R.-J. Spencer, M. B. Thompson and I. D. Hume	341	The diet and digestive energetics of an Australian short-necked turtle, *Emydura macquarii*
E. Cataldi, P. Di Marco, A. Mandich and S. Cataudella	351	Serum parameters of Adriatic sturgeon *Acipenser naccarii* (Pisces: Acipenseriformes): effects of temperature and stress
T. W. Ehlers and K. G. Vogel	355	Proteoglycan synthesis by fibroblasts from different regions of bovine tendon cultured in alginate beads
J. Šula, R. Socha and R. Zemek	365	Wing morph-related physiological differences in adults of temperate population of *Pyrrhocoris apterus* (L.) (Heteroptera: Pyrrhocoridae)
S. O. Andersen	375	Characterization of proteins from arthrodial membranes of the lobster, *Homarus americanus*
C. M. Luquet, C. O. Cervino, M. Ansaldo, V. C. Pereyra, S. Kocmur and R. E. Dezi	385	Physiological response to emersion in the amphibious crab *Chasmagnathus granulata* Dana (Decapoda Grapsidae): biochemical and ventilatory adaptations
S. M. Rankin, C. S. Garside, C. A. Christopher and S. S. Tobe	395	Partial characterization and isolation of earwig 'allatostatins': biological activities in earwigs and cockroaches
K. Iwatsuki, M. Nishidoi and K. Suehiro	405	Symbiotic *Chlorella* enhances the thermal tolerance in *Paramecium bursaria*
M. Z. Fan, O. Adeola, M. I. McBurney and C. I. Cheeseman	411	Kinetic analysis of L-glutamine transport into porcine jejunal enterocyte brush-border membrane vesicles
A. Chwalibog, K. Jakobsen, A.-H. Tauson and Grete Thorbek	423	Heat production and substrate oxidation in rats fed at maintenance level and during fasting
S. K. Malham, C. L. Coulson and N. W. Runham	431	Effects of repeated sampling on the haemocytes and haemolymph of *Eledone cirrhosa* (Lam.)
C. H. To and S. A. Hodson	441	The glucose transport in retinal pigment epithelium is via passive facilitated diffusion
